EDUCATION

University of Ottawa

Honours Bachelor of Science in Computer Science

- Dean's Honour List (2023, 2024, 2025)

Ottawa, ON

Sept. 2023 – May 2027

EXPERIENCE

Data Analyst

Jan 2026 – Aug 2026

Courts Administration Service

Ottawa, ON

- Streamlined HR reporting workflows by developing Power BI dashboards using DAX, Power Query and SharePoint data sources to reduce manual processing time by over 94%
- Supported the development and testing of Oracle and SQL Server data warehouse solutions using SQL for data validation and reporting workflows across datasets containing 30,000+ records
- Created and optimized Power BI data models and reporting workflows for HR, Finance and Security dashboards

Co-Founder / Software Engineer

April 2025 – Present

Technist

Toronto, ON

- Provided digital solutions for SMBs including website creation, social media and online presence optimization
- Delivered technical support and troubleshooting for 10+ customer systems including custom PC builds, hardware upgrades and software configuration

Software Engineer (Open Source Projects)

April 2024 – Sept 2024

Radical AI

New York, NY

- Developed and enhanced frontend UI components using React and Next.js while improving frontend-backend communication across the Kai AI platform
- Built backend workflows for authentication, chat session management and AI tool integrations using Firebase Functions, Firestore and Node.js
- Collaborated with developers through GitHub workflows, pull requests and code reviews to support feature development and deployment

Computer Technician

Jan 2022 – June 2022

Computer Windows

Brampton, ON

- Configured and optimized systems for customers through troubleshooting, software setup and performance tuning
- Diagnosed and resolved hardware, software and operating system issues across 20+ customer systems and high-performance custom PC builds
- Assembled and upgraded high-performance systems through RAM, SSD, GPU and operating system installations

PROJECTS

MindSpace | React (TypeScript), TailwindCSS, Node.js, OpenAI API, Vite

July 2025 – Oct 2025

- Built a full-stack journaling platform with React, providing users with an intuitive and responsive interface
- Integrated the OpenAI API to deliver AI-powered sentiment analysis and personalized confidence-level feedback
- Optimized frontend-backend communication with RESTful APIs, improving reliability and maintainability

CrowdSync | Java, Android Studio, Firebase, Material Design, CircleCI

Oct 2024 – Dec 2024

- Developed a scalable Android application in Java using Android Studio with role-based access control
- Designed Firestore data models with collections/subcollections to manage events and attendees workflows
- Automated builds and unit tests with CircleCI, ensuring code quality, CI/CD integration and smooth collaboration via GitHub version control

TECHNICAL SKILLS

Languages: Java, Python, C/C++, JavaScript, SQL, HTML/CSS, DAX, TypeScript

Frameworks: React, Next.js, Node.js, Flask, Firebase, TailwindCSS, Material Design, Android SDK

Developer Tools: Git, GitHub, Android Studio, VS Code, CircleCI, Postman, SSMS, Power BI, Power Query, Firebase CLI, Oracle SQL Developer, Vite, Eclipse

DBs & Platforms: SQL Server, Firestore, Firebase Functions & Hosting, SharePoint, Oracle, OpenAI API, Excel

Certifications: Microsoft Azure Fundamentals (In-Progress), Standard First Aid & CPR, Portfolio Development
